

2-way component kit

- Turnkey solution to upgrade the original installation
- VOLKSWAGEN® original connection
- Easy installation (1h max)
- Tweeter design made for perfect integration in the doorposts
- Audiophile quality sound

ADVANTAGES

- 100% plug and play
- Original installation upgrade
- Quick and easy installation (1h max)
- Better precision in high frequencies
- Improvement of the original acoustics
- Demonstration video (follow this QR Code)
- Full pack (tools and staples supplied)
- Significant results without changing the original system, evolutivity if amplification or replacement of the car stereo

TECHNICAL CHARACTERISTICS

Diameter: 6 1/2" [165mm]

Voice-coil diameter: 1" [25mm]

Voice-coil height: 0 7/16" [11.6mm]

Magnet: 3 1/3" [85mm]

Aluminum/magnesium inverted dome

TNB tweeter

Crossover: 12/18dB/oct [4kHz]

Max. power: 150 W

RMS power: 75 W

Sensitivity (2.83V/1m): 92.4dB

Kit bandwidth: 65Hz – 25kHz

Nominal impedance: 4Ω
